

Webinar Agenda

This webinar will discuss the Edit program. The discussion will include:

1. New features
 - a. Proofreading in Edit
 - b. Getting word definitions
 - c. Looking up words on the Internet
 - d. Using previous globals
 - e. Making ASCII files
 - f. Importing ASCII files
 - g. Automatic Indexing options
 - h. Using Window control commands
 - i. Inserting and globaling special characters
2. Edit Preferences
 - a. AutoCorrect
 - b. Setting time stamp options
 - c. Window colors
 - d. Audio Sync Options
3. Picklists
 - a. Using predefined picklists
 - b. Making a new picklist
 - c. Adding an existing appearance into a picklist
4. The Edit menus
5. Changing function keys

We highly encourage questions about the topic at hand. At the end of the webinar we will entertain questions about other AristoCAT topics. We expect the webinar to last about two hours plus the Q&A session. In addition we encourage suggestions for future webinars.
